- For **Paid Faculty** the comments section of the **Hire/Add Job/Change Job** transaction should include:
 - For Lecturers: must include the number of courses and the session (i.e. spring, fall, etc.)
 - For Hourly Faculty: because an hourly generic Job Profile is used on the Hourly Faculty Hire/Add Job/Change Job transaction, the comment must include the intended title and duties.
 - Special Term Courses: Include the courses and the course dates.
 - Non-Standard Pay: The full reason for the payment must be detailed.

Dates in Workday
(Special Courses and VISA
appointments deviate from
these guidelines)

- **Contract dates for 9-month** faculty must have 9-month academic appointment dates. **Offer letters must also follow these dates.** The dates can be found at <https://faculty.umd.edu/appt/appointment-agreements>
- **Hire, Start and End Employment Dates:** Payroll dates should be entered. For 9-month employees the academic payroll dates for a 22 pay are: PP04-PP14 (Fall), PP15-PP25 (Spring), PP04-PP25 (Academic Year)
- **Academic Appointment Dates:** They should match the contract dates. However, there are technical issues for Spring 25. Therefore, the PP15 start date should be used as the Appt Start Date and the AY End Date should be used as the Appt End Date. This is for Spring 25 only!
- **Period Activity Pay:** The two dates distinguish the actual work dates from the payroll dates.
 - Non-Teaching Overloads: The activity dates must match the **actual dates the duties are being performed.** The payment dates should match the pay period dates
 - Teaching Overload: Academic Dates must be used for the activity dates.
 - Summer Pay/Research: Activity Dates are the actual dates of the summer assignment

- Please ensure that the contract is complete before routing.

Academic Appointments

- *Most Academic Appointment transactions are initiated only **after** the Academic Analyst receives the Appointment-related item in their MyTask inbox. This is because the Hire/Add Job/Change Job process must be completed for the Academic Appointment to be related/linked to the position & validate the end date (when appropriate).*
 - One exception: Academic Appointments on the Affiliate with TTK or Affiliate with PTK Track are processed as an ad hoc Add Academic Appointment since they are not directly related to a staffing transaction.
- All Faculty in **TTK, PTK & Other Faculty** Positions within the Division of Academic Affairs require an Academic Appointment.
- There should only be **one** Primary (Faculty-Primary or Joint-Primary) Academic Appointment but there can be **multiple** Faculty-Secondary Academic Appointments. A Joint-Secondary Identifier is only appropriate when part of an **official** Joint Position and a Joint-Primary appointment is in place.
- **Teaching Overloads & Summer School** Jobs only require an Academic Appointment if one (in any unit) does not already exist. The Add Academic Appointment task will not launch when an appointment already exists.
 - Graduate Assistants with Teaching Overloads or Summer School Jobs should not have an Academic Appointment created at this time.
- **Faculty Non-Standard Pay** Jobs will always launch an Add Academic Appointment task, however, an appointment is *only* necessary when the job is for a period of time not already represented by an appointment in the same unit. No appointment is needed for an expense payout, e.g. moving expenses.
 - Graduate Assistant Non-Standard Pay Jobs should not have an Academic Appointment created.
- **Academic Leadership** positions are represented by two academic appointments: one for their faculty rank, e.g. Professor and one for their academic administrator role, e.g. Director. Both Academic Appointments are related to the same position in each appointment's Employment Position field.
- **Comments & Attachments** – Refer to Pages 4 & 5
- **Academic Appointment Dates** – Refer to Dates on Page 6

Miscellaneous

- Please ensure that all faculty salaries are at or above the minimum and that they are in the correct pay level. The level is listed on the salary guidelines and pre-populated in Workday based on the Job Profile.
- Please ensure that Extended Studies is provided with the correct per-course rates for any courses administered through their office.
- Please do not change the percentage of a course to maintain a specific salary. For instance, if your courses are 25% per three-credit course, do not change the amount to 17.5% to make the math work. Each department has standard rates, please abide by those rates.
- Faculty being awarded tenure in a Hire/Add Job/Change Job transaction must have two APT letters attached. The one signed by President Pines & the letter signed by Associate Provost Bertot.
- Do not tell individuals that their appointment is with the Provost's Office. Individuals have been contacting the actual Provost's Office. Please provide the correct contact information. Unless otherwise directed, the Dean's Office HR staff should be the only individuals directly contacting Rhonda L. Smith in the Provost's Office of Finance & Personnel.
- Please do not contact UHR's support with **faculty** position & appointment inquiries.
